The 34th Annual Dental Review will be held at the beautiful Embassy Suites Resort at Kingston Plantation and should prove to be a GREAT UPDATE FOR THE GENERAL DENTIST. This year’s program will feature MANY NEW TOPICS of interest to the GF. The program will be highlighted by an excellent line-up of speakers including returning clinicians, Dr. Glenn Maron, a noted oral surgeon who is our featured speaker as well as the ever popular guest speaker, Dr. Randy Huffines, along with outstanding faculty from UNC.

Day 1 will be highlighted by Dr. Glenn Maron who is back by popular demand. Dr. Maron is the team doctor for the Atlanta Braves, the Atlanta Falcons and was the designated oral surgeon for the summer Olympic Games in 1996. Dr. Maron is widely known for his “common sense” presentations on clinically relevant topics in oral surgery and related topics. A board-certified oral surgeon, Dr. Maron currently maintains a private practice in Atlanta, and serves as a Clinical Assistant Professor in the Division of Oral and Maxillofacial Surgery at the Emory University School of Medicine. His presentation on Day 1 will include an eye-opening and vital medical update for the GP with topics ranging from biophosphonates to blood thinners.

Also returning on Day 1 is the well-known, Dr. Randy Huffines, one of our most popular guest speakers, who will review how best to avoid mistakes with implant overdentures. Topping off a superb day of talented teachers is Dr. Tuase Salamaan, who will present a practical review of dental adhesion.

Day 2 will start with a great overview by Dr. Ed Swift of current concepts in light curing. Additionally on Day 2, Dr. Andrea Zandona will provide the latest information on current approaches to caries management. The talented Dr. Andrea Zandona will also provide evidence based look at factors affecting the longevity of composite restorations. Finally Dr. Harald Heymann will delve into interdisciplinary considerations in the replacement of missing laterals, including important considerations in the staging of anterior dental implants.

Day 3 will kick off with a valuable review by one of the most respected experts in prosthodontics, Dr. Terry Donovan. Dr. Donovan will provide a talent presentation on current cementation protocols for clinical success. Thereafter, guest speaker, Dr. Randy Huffines will provide a unique lecture called “Tips from Yeche’s a valuable review of insights gained from our lab tech colleagues on how we can best improve our restorative outcomes”. Finally, our featured speaker, Dr. Glenn Maron, will provide an invaluable update on oral and maxillofacial infections and how best to treat them. This year’s 34th Annual Dental Review program indeed promises to be a GREAT REVIEW FOR THE GENERAL DENTIST that you will not want to miss!!

At the completion of this course, participants should be able to:

1. Describe the process for generating implant overdentures and the means for avoiding critical mistakes.
2. Distinguish among the many new dentin bonding systems and relate the advantages and disadvantages of each.
3. Identify the various categories of pharmaceutical agents encountered in dental patients and the most critical clinical concerns for each.
4. Identify the various types of light curing systems and the clinical considerations that are vital in optimal light curing.
5. Review the various types of caries management systems and the clinical indications for each.

MEET THE SPEAKERS

Dr. Glenn Maron received both his DDS degree in 1986 as well as his training in oral and maxillofacial surgery at Emory University. A board-certified oral surgeon, Dr. Maron currently maintains a private practice in Atlanta, and serves as a Clinical Assistant Professor in the Division of Oral and Maxillofacial Surgery at the Emory University School of Medicine. Dr. Maron is highly regarded for his skills in restorative surgery as well as managing complex maxillofacial trauma cases.

Dr. Randy Huffines for 30 years has treated older and medically complex adults in a traditional private practice, nursing homes, and hospitals. In 1988 he completed a two-year clinical fellowship in Geriatric Dentistry at the Emory University School of Medicine. He has faculty appointments in colleges of dentistry, medicine, nursing, and allied health. Dr. Huffines is a past president and a fellow of the American Society for Geriatric Dentistry, Fellow of the American Association of Hospital Dentists, and Diplomat of the American Board Special Care Dentistry. He is a Fellow of and Examiner for the Royal College of Surgeons, Edinburgh, Scotland.

UNC FACULTY

Terry Donovan, DDS, Professor, UNC Department of Operative Dentistry
Harald Heymann, DDS, MEd, Professor, UNC Department of Operative Dentistry
Andrea Zandona, DDS, MS, PhD, Assistant Professor, UNC Department of Operative Dentistry
Edward Swift, DDS, MS, Assistant Dean for Education, UNC School of Dentistry
Andrew Zandona, DDS, MS, PhD, Assistant Professor, UNC Department of Operative Dentistry

Tuase Salamaan, BDS, PhD, Assistant Professor, UNC Department of Operative Dentistry

COURSE OBJECTIVES

1. Identify the various vital factors affecting the longevity of anterior and posterior composite restorations.
2. Discuss the various options for the temporary replacement of missing anterior teeth and the important factors in staging future anterior implants.
3. Review the various types of cementation protocols for optimal placement of various indirect restorations.
4. Discuss the various types of maxillofacial infections encountered clinically and the pharmaceutical treatment options for each.
5. Review the various types of light curing systems and the clinical indications for each.
6. Identify the various vital factors affecting the longevity of anterior and posterior composite restorations.
7. Discuss the various restorative options for the temporary replacement of missing anterior teeth and the important factors in staging future anterior implants.
8. Review the various types of cementation protocols for the optimal placement of various indirect restorations.
9. Discuss the various types of maxillofacial infections encountered clinically and the pharmaceutical treatment options for each.

JUNE 15 - 17, 2017
Kingston Plantation
• A Hilton® and Embassy Suites® Resort
• Myrtle Beach, SC
Once you have registered for the course, be sure to make your room reservations. Two-night ocean view suites at the Kingston Plantation welcome you with comfort and convenience. Condominiums throughout the Plantation offer a spacious alternative in natural surroundings for even more privacy. One, two, and three-bedroom units vary in size and style; rates are available on reservations. One-night reservations are available at www.kingstonplantation.com. Rooms are available with ocean views, interior, or lakefront. Check-in is on Wednesday, June 7, and check-out is on Sunday, June 18, 2017. Hotel suite rates are $200 (single or double), $265 for two-bedroom suite, $325 for three-bedroom suite, and $425 for four-bedroom suite. Please make your reservation at the Kingston Plantation Reservations Office at (800) 878-0010 or call Central Reservations at (800) EMBASSY. Please refer to the UNC School of Dentistry Annual Dental Review room block when making your reservations. Don’t be disappointed, book early. The room block will be released after Friday, May 12, 2017. Cancellations made less than 7 days prior to arrival will forfeit one night deposit. Hotel suites only (sorry, no villas) include complimentary breakfast and afternoon cocktails. For more information on the Kingston Plantation, visit their website at www.kingstonplantation.com.

Conflict of Interest:
In accordance with the ADA CERP Standard V, everyone involved in planning or presenting this educational course will be required to disclose any relevant financial relationships with commercial interests and this information will be made available to participants at the start of the course. As a continuing education provider, UNC School of Dentistry is responsible for ensuring the content, quality and scientific integrity of all continuing dental education activities for which credit is provided. The School is also responsible for taking steps to protect against and/or disclose any conflict of interest of the faculty/professionals presenting these courses.

2 EASY WAYS TO REGISTER
Be sure to fill out all applicable information on the registration form. Upon completion, you may either:
[ ] Register by Mail
Send completed registration form with a check or money order made payable to UNC School of Dentistry.

[ ] Register on-line
Direct your web browser to www.dentistry.unc.edu/cede.

Cancellation Policy
A registration refund, less a $50 fee, will be issued for cancellations received in writing by Wednesday, June 7, 2017. Cancellation request must include the name of the course, name of the person registering, name of the person requesting the cancellation, and the reason for the cancellation. No cancellation will be issued after Wednesday, June 7, 2017. The UNC School of Dentistry Continuing Dental Education Program cannot be responsible for the refund of any part of the registration fee as a result of emergencies, unforeseen circumstances, or events beyond its control after the cancellation date. The University reserves the right to cancel or postpone any course due to circumstances. In the event of cancellation or postponement, the University will fully refund registration fees but is not responsible for any related costs or expenses to participants, including cancellation fees assessed by hotels, airlines, rental car or travel agencies.

The 34th Annual Dental Review will be held at the beautiful Embassy Suites Resort at Kingston Plantation and should prove to be a GREAT UPDATE FOR THE GENERAL DENTIST. This year’s program will feature MANY NEW TOPICS of interest to the GP. The program will be highlighted by an excellent line-up of speakers including returning clinicians, Dr. Glenn Maron, a noted oral surgeon who is our featured speaker, as well as the ever popular guest speaker, Dr. Randy Huffines, along with outstanding faculty from UNC.

Day 1 will be highlighted by Dr. Glenn Maron who is back by popular demand. Dr. Maron is the team doctor for the Atlanta Reapers, the Atlanta Falcons and was the designated oral surgeon for the Summer Olympic Games in 1996. Dr. Maron is widely known for his “common sense” presentations on clinically relevant topics in oral surgery and related topics. A board-certified oral surgeon, Dr. Maron currently maintains a private practice in Atlanta, and serves as a Clinical Assistant Professor in the Department of Oral and Maxillofacial Surgery at the Emory University School of Medicine. His presentation on Day 1 will include an in-depth and vital medical update for the GP with topics ranging from bisphosphonates to blood thinners.

Day 2 will be highlighted by Dr. Glenn Maron who is back by popular demand. Dr. Maron is the team doctor for the Atlanta Reapers, the Atlanta Falcons and was the designated oral surgeon for the Summer Olympic Games in 1996. Dr. Maron is widely known for his “common sense” presentations on clinically relevant topics in oral surgery and related topics. A board-certified oral surgeon, Dr. Maron currently maintains a private practice in Atlanta, and serves as a Clinical Assistant Professor in the Department of Oral and Maxillofacial Surgery at the Emory University School of Medicine. His presentation on Day 1 will include an in-depth and vital medical update for the GP with topics ranging from bisphosphonates to blood thinners.

Day 2 will start with a great overview by Dr. Ed Swift of current concepts in light curing. Additionally on Day 2, Dr. Andrea Zandona will provide the latest information on current approaches to caries management. The talented Dr. Ande Ritter will provide a clinical update on how we can best improve our restorative outcomes. Thereafter, guest speaker, Dr. Randy Huffines will provide an updated review of insights gained from our tech colleagues on how we can best improve our restorative outcomes. Finally, our featured speaker, Dr. Glenn Maron, will provide an in-depth update on oral and maxillofacial infections and how best to treat them. This year’s 34th Annual Dental Review program indeed promises to be a GREAT REVIEW FOR THE GENERAL DENTIST that you will not want to miss!!

### COURSE OBJECTIVES

- Describe the process for generating implant overdentures and the means for avoiding critical mistakes.
- Distinguish among the many dentin bonding systems and relate the advantages and disadvantages of each.
- Identify the various types of clinical considerations that are vital to optimal light curing.
- Review the various types of caries management systems and the clinical indications for each.

### MEET THE SPEAKERS

**Dr. Glenn Maron** received both his DDS degree in 1986 as well as his training in oral and maxillofacial surgery at Emory University. A board-certified oral surgeon, Dr. Maron currently maintains a private practice in Atlanta, and serves as a Clinical Assistant Professor in the Division of Oral and Maxillofacial Surgery at the Emory University School of Medicine. Dr. Maron is highly regarded for his skills in reconstructive surgery as well as managing complex maxillofacial trauma cases.

**Dr. Randy Huffines** for 30 years has treated older and medically complex adults in a traditional private practice, nursing homes, and hospitals. In 1994 he completed a two-year clinical fellowship in Geriatric Dentistry. For the past 25 years he has been Director of Geriatric Dentistry at the Quillen Medical Center in Johnson City, Tennessee. He has faculty appointments in colleges of dentistry, medicine, nursing, and allied health. Dr. Huffines is a Past President and a Fellow of the American Society for Geriatric Dentistry, Fellow of the American Association of Hospital Dentists, and Diplomat of the American Board Special Care Dentistry. He is a Fellow of and Examiner for the Royal College of Surgeons, Edinburgh, Scotland.

**UNC FACULTY**

**Terry Donovan, DDS, Professor, UNC Department of Operative Dentistry**

**Harald Heymann, DDS, MEd, Professor, UNC Department of Operative Dentistry**

**André Ritter, DDS, MS, MBA, Thomas P. Human Distinguished Professor and Chair, UNC Department of Operative Dentistry**

**Taiseer Sulaiman, BDS, PhD, Assistant Professor, UNC Department of Operative Dentistry**

**Edward Swift, DDS, MS, Assistant Dean for Education, UNC School of Dentistry**

**Andrea Zandona, DDS, MS, PhD, Associate Professor, UNC Department of Operative Dentistry**

**GREAT REVIEW FOR THE GENERAL DENTIST**

**Tips from Techs:** a valuable practical review of dental adhesion systems and the clinical indications for each.

1. Describe the process for generating implant overdentures and the means for avoiding critical mistakes.
2. Distinguish among the many dentin bonding systems and relate the advantages and disadvantages of each.
3. Identify the various types of pharmaceutical agents encountered in dental patients and the most critical clinical concerns for each.
4. Identify the various types of light curing systems and the clinical considerations that are vital to optimal light curing.
5. Review the various types of caries management systems and the clinical indications for each.
6. Identify the various vital factors affecting the longevity of anterior and posterior composite restorations.
7. Discuss the various restorative options for the temporary replacement of missing anterior teeth and the important factors in selecting a replacement.
8. Review the various types of cementation protocols for the optimal placement of various indirect restorations.
9. Discuss the various types of maxillofacial infections encountered clinically and the pharmaceutical treatment options for each.

The 34th Annual Dental Review will be held at the beautiful Embassy Suites Resort at Kingston Plantation and should prove to be a GREAT UPDATE FOR THE GENERAL DENTIST. This year’s program will feature MANY NEW TOPICS of interest to the GP. The program will be highlighted by an excellent line-up of speakers including returning clinicians, Dr. Glenn Maron, a noted oral surgeon who is our featured speaker, as well as the ever popular guest speaker, Dr. Randy Huffines, along with outstanding faculty from UNC.

Day 1 will be highlighted by Dr. Glenn Maron who is back by popular demand. Dr. Maron is the team doctor for the Atlanta Reapers, the Atlanta Falcons and was the designated oral surgeon for the Summer Olympic Games in 1996. Dr. Maron is widely known for his “common sense” presentations on clinically relevant topics in oral surgery and related topics. A board-certified oral surgeon, Dr. Maron currently maintains a private practice in Atlanta, and serves as a Clinical Assistant Professor in the Department of Oral and Maxillofacial Surgery at the Emory University School of Medicine. His presentation on Day 1 will include an in-depth and vital medical update for the GP with topics ranging from bisphosphonates to blood thinners.

Day 2 will start with a great overview by Dr. Ed Swift of current concepts in light curing. Additionally on Day 2, Dr. Andrea Zandona will provide the latest information on current approaches to caries management. The talented Dr. Ande Ritter will provide a clinical update on how we can best improve our restorative outcomes. Thereafter, guest speaker, Dr. Randy Huffines will provide an updated review of insights gained from our tech colleagues on how we can best improve our restorative outcomes. Finally, our featured speaker, Dr. Glenn Maron, will provide an in-depth update on oral and maxillofacial infections and how best to treat them. This year’s 34th Annual Dental Review program indeed promises to be a GREAT REVIEW FOR THE GENERAL DENTIST that you will not want to miss!!

**MEET THE SPEAKERS**

**Dr. Glenn Maron** received both his DDS degree in 1986 as well as his training in oral and maxillofacial surgery at Emory University. A board-certified oral surgeon, Dr. Maron currently maintains a private practice in Atlanta, and serves as a Clinical Assistant Professor in the Division of Oral and Maxillofacial Surgery at the Emory University School of Medicine. Dr. Maron is highly regarded for his skills in reconstructive surgery as well as managing complex maxillofacial trauma cases.

**Dr. Randy Huffines** for 30 years has treated older and medically complex adults in a traditional private practice, nursing homes, and hospitals. In 1994 he completed a two-year clinical fellowship in Geriatric Dentistry. For the past 25 years he has been Director of Geriatric Dentistry at the Quillen Medical Center in Johnson City, Tennessee. He has faculty appointments in colleges of dentistry, medicine, nursing, and allied health. Dr. Huffines is a Past President and a Fellow of the American Society for Geriatric Dentistry, Fellow of the American Association of Hospital Dentists, and Diplomat of the American Board Special Care Dentistry. He is a Fellow of and Examiner for the Royal College of Surgeons, Edinburgh, Scotland.
