Poster Presentations

Posters 5/5/2017- Dogwood Room

Posters can be viewed throughout the day with the official time for presentation from 1:45-2:15.

1. Modification of T9SS cargo proteins of *Porphyromonas gingivalis* for their secretion in soluble form and purification by affinity chromatography.
2. Biomaterial surface proteomic signature determines interaction with epithelial cells.
3. Epicatechin Down-regulates Adipose Tissue CCL19 Expression, Thereby Ameliorates Diet-induced Obesity and Insulin Resistance.
5. Distinct *Porphyromonas gingivalis* Fimbria Promote Anti- or Pro-Apoptotic Functions of Dendritic Cells, involved in Dissemination.
8. Long-Term Sustainable Dendritic Cell-Specific Depletion in A Murine Model For Alveolar Bone Loss.
9. Neural Crest-Mediated Gene Expression that Regulates Jaw Bone Formation.
13. Relationship between Salivary Microbiome and Disease in Japanese Employees.
15. Influence of Vitamin D Supplementation on Clinical, Salivary and Blood Measures of Inflammation in Periodontitis: A Placebo Controlled Randomized Pilot Trial.
Poster Presentations

Posters 5/6/2017- Dogwood Room

Posters can be viewed throughout the day with the official time for presentation from 1:45-2:15.

2. Expression and Function of Connexin 43 in Human Gingival Wound Healing and Fibroblasts.
3. Tuberosity vs Palatal Donor Sites for Gingival Grafting: A Split Mouth Clinical Study.
5. Impact of Local Drug Delivery of Minocycline on the Subgingival Microbiota during Supportive Periodontal Therapy: a Pilot Study.
6. Accuracy of Implants Placed with Surgical Guides: Thermoplastic vs. 3-D Printed
7. Augmenting Gingival Profile around Implant Fixtures - A Modified Pedicle Connective Tissue Rolled Technique
8. Management of Impacted and Ectopic Erupted Teeth in Growing Children, literature review and Case Report
10. Patients Satisfaction Survey and Total Antioxidant Capacity in Patients with Xerostomia compared to a Placebo Group: An Evaluation of an Antioxidant.
11. Smokeless Tobacco Harm Perceptions Among California Rural male adolescents.
13. Reduction in Salivary Bacteria by an Oral Spray containing 0.3% Cetylpyridinium Chloride
14. Evaluation of Curved Design Soft-Picks on Patients with Gingivitis
15. Injectable Gelatin Gel Incorporating Platelet Rich Plasma Release for the Treatment of Periodontal Defects
16. 3-D imaging of Periodontal Pockets as a Novel Approach for Monitoring Periodontal Disease
