22nd Annual Dental Hygiene Lecture
Connecting the Dots between Cancer, Chronic Illness & Periodontal Disease

&
The Emerging Role of Risk Assessment and Air Polishing in the Treatment of Periodontal Disease

Friday, April 20, 2018
Registration Deadline: Friday, April 13, 2018
Course Code: 18 DE 007

Please make additional copies for each person registering

- DDS $295
- RDH $195
- Team Member $195

Dental education institutions have an obligation to disseminate new knowledge related to dental practice. In so doing, some presentations may include controversial materials or commercial references. Sponsorship of a continuing education course by the University of North Carolina does not necessarily imply endorsement of a particular philosophy, procedure, or product by this institution.

The University of North Carolina School of Dentistry cautions continuing dental education participants that there are potential risks of using limited knowledge when incorporating new techniques and procedures into the practice of dentistry, especially when the continuing education course has not provided supervised clinical experience and/or competency tests in the techniques or procedures.

By providing my information, I consent to receive communications via mail, email, fax, and phone from the University of North Carolina Continuing Dental Education office. The Continuing Dental Education office will not share your information with anyone.
Course Description
Morning session: Current evidence suggests that common risk factors are shared between cancer, chronic illnesses and periodontal disease. However, do clinicians determine hype versus science? What role does inflammation play in disease development? This program examines trends in disease management and suggests how dental professionals can connect the dots between oral and overall health, and proactively guide patients toward reducing their risks.

Afternoon session: New technologies, practice standards, and approaches to person-centered care are providing enhanced options for treating patients with periodontal disease. Approximately 1/3 of the adult population has a genetic variation for periodontal disease and current studies estimate that 50% of disease progression is related to genetic differences. Using a person-centered approach with tailored risk assessments and salivary diagnostics can identify specific pathogens implicated in periodontal disease and genetic variations that can impact susceptibility. Emerging technologies including sub-gingival air polishing devices are accompanying improved approaches to care by targeting and removing disease-causing biofilms that harbor dangerous pathogens. Today, clinicians can personalize care and target pathogenic biofilms using a shift in protocols that includes incorporation of new technologies and a holistic approach to care.

Course Objectives
Upon completion of this course, participants should be able to:
1. Identify how inflammation influences disease initiation and progression.
2. Differentiate between periodontal pathogens, diet, genetic influences and lifestyle choices.
3. Guide patients toward strategies to take ownership of their health.
4. Explain why pathogenic biofilm is an enemy to health.
5. Describe how DNA information can alter periodontal care.
6. Discover the science and safety of subgingival air polishing.
7. Recognize how to shift paradigms and clinical protocols to manage biofilm.

ADA STATEMENT: The University of North Carolina at Chapel Hill is committed to equality of educational opportunity and does not discriminate against applicants, students, or employees on the basis of race, color, religion, sex, national origin, age, disability, veteran’s status, or sexual orientation. If you require reasonable accommodations for a disability in order to participate fully in this continuing education course, please call 919-537-3400 no later than Friday, April 13, 2018 or attach a note to your registration form.

About the Speaker
Karen Davis, RDH, BSDH is founder of Cutting Edge Concepts®, an international speaker and practices dental hygiene in Dallas, Texas. Dentistry Today has recognized Karen as a “Top Clinician in Continuing Education” and The UNC School of Dentistry is an ADA CERP Recognized Provider. UNC CDE’s term of recognition is May 1, 2015 through June 30, 2019. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Concerns or complaints about a CE provider may be directed to the provider or to ADA CERP at www.ada.org/cerp.

The UNC School of Dentistry designates this course for UP TO 6 HOURS of continuing education credit.

Registration and Fees
The registration fee is $295 for dentists and $195 for RDH and Team Members. The registration fee includes course materials, CE credit and all meals listed in the agenda. All registrations must be received by Friday, April 13, 2018. UNC CDE recommends that you do not make air travel arrangements prior to receiving a receipt of payment or confirmation. UNC CDE is not responsible for any travel-related costs.

Cancellation and Refunds
A registration refund, less a $50 fee, will be issued for cancellations received in writing by Friday, April 13, 2018. Cancellation requests must be received in writing via either fax 919-445-2110 or email cde@dentistry.unc.edu. The cancellation request must include: the name of the course, name of the person registered, name of the person canceling the registration, and the reason for the cancellation. No refunds will be issued after Friday, April 13, 2018. The UNC School of Dentistry Continuing Dental Education Program cannot be responsible for the refund of any part of the registration fee as a result of emergencies, unforeseen circumstances, or events beyond its control after the cancellation date. The University reserves the right to cancel or postpone any course due to unforeseen circumstances. In the event of cancellation or postponement, the University will fully refund registration fees but is not responsible for any related costs or expenses to participants, including cancellation fees assessed by hotels, airlines, rental car or travel agencies.

Cancellation and Refunds
A registration refund, less a $50 fee, will be issued for cancellations received in writing by Friday, April 13, 2018. Cancellation requests must be received in writing either via fax 919-445-2110 or email cde@dentistry.unc.edu. The cancellation request must include: the name of the course, name of the person registered, name of the person canceling the registration, and the reason for the cancellation. No refunds will be issued after Friday, April 13, 2018. The UNC School of Dentistry Continuing Dental Education Program cannot be responsible for the refund of any part of the registration fee as a result of emergencies, unforeseen circumstances, or events beyond its control after the cancellation date.

The University reserves the right to cancel or postpone any course due to unforeseen circumstances. In the event of cancellation or postponement, the University will fully refund registration fees but is not responsible for any related costs or expenses to participants, including cancellation fees assessed by hotels, airlines, rental car or travel agencies.
